

## Colours in Worship

This is just a guide and not definitive, any colour is open to different interpretation. God can reveal so much with what we use in our worship. So really open your heart as you step forward to worship.

Think more personally about what colours mean to you and why. Different feelings, circumstances and seasons can all affect your associations with a colour.

Remember flags and banners should not be picked up lightly. There is a lot more power in them, than people realise. They are vehicle to talk to God, to communicate, worship and share your heart. Be aware of this, as you choose to move with them.

Realise that God may have something He wants to communicate to you or through you when you move.

### Overview of colour meanings

- Red - Jesus Blood – forgiveness of sin, cleansing, healing, warfare, consuming fire
